

1. Count the number of lines in a text file

```
file = open("data.txt", "r")  
  
count = 0  
  
for line in file:  
    count = count + 1  
  
file.close()  
  
print("Number of lines:", count)
```

2. Count the number of words in a text file

```
file = open("data.txt", "r")  
  
count = 0  
  
for line in file:  
    words = line.split()  
    count = count + len(words)  
  
file.close()  
  
print("Number of words:", count)
```
